THS Pathways

The purpose of developing pathways at Tolland High School is to provide a more cohesive overall experience for students, while allowing them a ***more focused opportunity to explore a career and/or interest***. These smaller, focused pathways serve to link students with peers, teachers, and community partners to foster academic engagement and success, develop a sense of community, and help students to connect what they learn in school with their career aspirations and goals.

THS Pathways

- *How does my pathway affect the courses I might take?
- *Once I choose a pathway, do I stay in the pathway until I graduate?
- *What benefits are there to being part of a pathway?
- *How do I join a pathway?
